WATER REPELLENT & REFLECTIVE TAPE SAMPLE

防水拉链使用说明

Water Repellent Zipper Instruction Manual

► 关于“防水拉链”：

- 1、“防水拉链”是指通过在拉链带上粘贴一层聚氨酯胶膜，从而使其具有防水性能；
- 2、防水拉链并非完全防水，水能够透过密封的胶膜和牙链；
- 3、采用此防水拉链在制作户外用品时无需在拉链部位再进行防水处理；
- 4、防水拉链上的聚氨酯胶膜的光泽度能丰富衣物、包装等产品的设计风格。

用途：广泛应用于服装、包装、帐篷、户外及运动用品等。

► 洗涤注意事项：

- 1、洗涤时应将拉链闭合，如洗涤方法不当，可能会磨损胶膜导致防水性能下降；
- 2、干洗时请选择石油系列进行清洗，盐素系列干洗（如：四氯乙烯干洗）会降低拉链开闭拉感，导致移染、胶膜泛白、脱落等异常现象；
- 3、该产品不能放置于干燥机内干燥，否则会使胶膜开裂，严重时将会导致胶膜完全脱落。

熨烫注意事项：应避免直接对拉链进行熨烫，否则会导致胶膜开裂脱落。

► 使用·贮存注意事项：

- 1、请勿将产品接触氯乙烯、聚氨酯等物质，以避免产品发生移染现象；
- 2、在使用或贮存过程中要防止与化学类药品或有机溶剂等直接接触（如：擦拭、浸泡等）否则会导致胶膜起皮、起泡，严重时将会导致胶膜完全脱落；
- 3、请勿将产品放置于阳光直射处保管，否则将产生产品颜色变淡、变黄等异状；
- 4、因曲折、拉头开合导致胶膜出现泛白现象不会影响拉链的防水功能；
- 5、由于聚氨酯的特性，拉链的颜色会比THC普通色卡上所呈现的颜色偏深。

► About the Water Repellent Zipper:

- 1.The water repellent zipper has water repellency performance by sticking a polyurethane film on the zipper tape.
- 2.This zipper is water repellent,not waterproof/watertight,so water can leak past the film seal and zipper teeth.
- 3.It's not necessary for outdoor products to carry out waterproofing treatment on this type of zipper.
- 4.The luster of polyurethane film on zipper enriches the design of clothing and bags.

Function:Widely used on cloths,bags,tents,outdoor suppliers,etc.

► Notice for Washing:

- 1.The zipper must be completely closed when washing in order to avoid damage to the film.
- 2.When dry cleaning,a petroleum based dry cleaning solvent is recommended.Chlorine based solvent often cause difficulty in operating the zipper,color runs,cloudy film,or the film dropt.
- 3.Water repellent zipper shall not be dried by drier,or it may damage the film,and result in deterioration of the zipper' s water repellency.

Notice for ironing:Avoid direct ironing on the zipper,or the film may be crisp or even dropt.

► Notice for using and storing:

- 1.Attachment to PVC or polyurethane material may cause transfer dyeing.
- 2.Avoid direct contact with chemical medicines or organic solvents when using or storing,or the film may be crisp,blisters or even drop out when it is serious.
- 3.Keep the zipper away from direct sunlight,or it may lighten the color or turn the color into yellow.
- 4.Bending or pulling of slider may cause cloudy film,but it will not affect the zipper waterproof performance.
- 5.Due to the nature of the polyurethane film processing,the zipper color may vary from the color shown on the THC color card.
